Brick Quilt #1: This brick quilt block can be made with 4 light bricks and 4 dark bricks. To cut bricks, cut the brick length across the width of fabric. Then use a strip die (2", 2 1/2" or 3 1/2") or rotary cutter to cut the bricks. There is an Accuquilt die specifically for the 3 1/2" x 6 1/2" brick.

Brick sizes that can be used:
2" x 3 1/2" ==> 6" finished block size
2 1/2" x 4 1/2" ==> 8" finished block size
3 1/2" x 6 1/2" ==> 12" finished block size
Block Construction:
Make block in two halves as follows:
Stitch a light and dark brick together lengthwise.
Stitch either light or dark bricks on either end, as shown.
Press all seams toward the dark patch.
Assemble blocks into a quilt alternating light and dark blocks.
Stitching Diagram for Brick Quilt #1

Stitch two halves separately, pressing all seams to the dark. Seams will alternate on the middle seam and can be opened to make the block press flat.
