Brick Tee Lap Quilt  
Overall Size: 42” x 60”

**INSTRUCTIONS**

**Finished Block Size 6 x 9”**

**Solid:**
36 each 3-1/2 x 6-1/2”

**Solid Neutral**
36 each 3-1/2 x 6-1/2”

**Print**
36 each 3-1/2 x 6-1/2”

**Sashing:**
210 inches of 3-1/2” strips sewn together

**Binding:**
210 inches of 2-1/2” strips sewn together.

Sew two 3 1/2x 6 1/2 bricks together along the long side. Use one print and one solid (or reads as solid).

Sew another solid/neutral to one side vertical to the seam to make a “T”.

Note that if you want to keep the print bricks in alternating rows, you will place the “T” brick on the opposite end as you stitch.

Make 36 patchwork blocks.

Arrange as shown in picture, alternating the orientation of patches in every other row. Four patches across make one row. Make 9 rows.

Add sashing and binding.

Quilt as desired.

---

Cutting: The bricks for this quilt are easily cut with the AccuQuilt GO! 6-1/2” strip die (55086) and 3-1/2” strip die (55032).

Make 18 of each block.

The illustrations show only three fabrics. However, this quilt looks great as a scrappy quilt. Keeping the blocks arranged as neutral and darker light and print makes the different scrappy prints stand out much better.

Alternate Option using a Jelly Roll: This can also be made with 2-1/2 x 4-1/2” bricks using one each 42 piece Jelly Roll of coordinated fabrics and fanfolding those jelly roll strips across the 4-1/2” AccuQuilt GO! strip die (55054). This would require seven blocks across and ten blocks down for a total of 70 blocks and 210 each 2-1/2 x 4-1/2” bricks.
