

# STAR IN A STAR QUILT BLOCK

Cut Using the

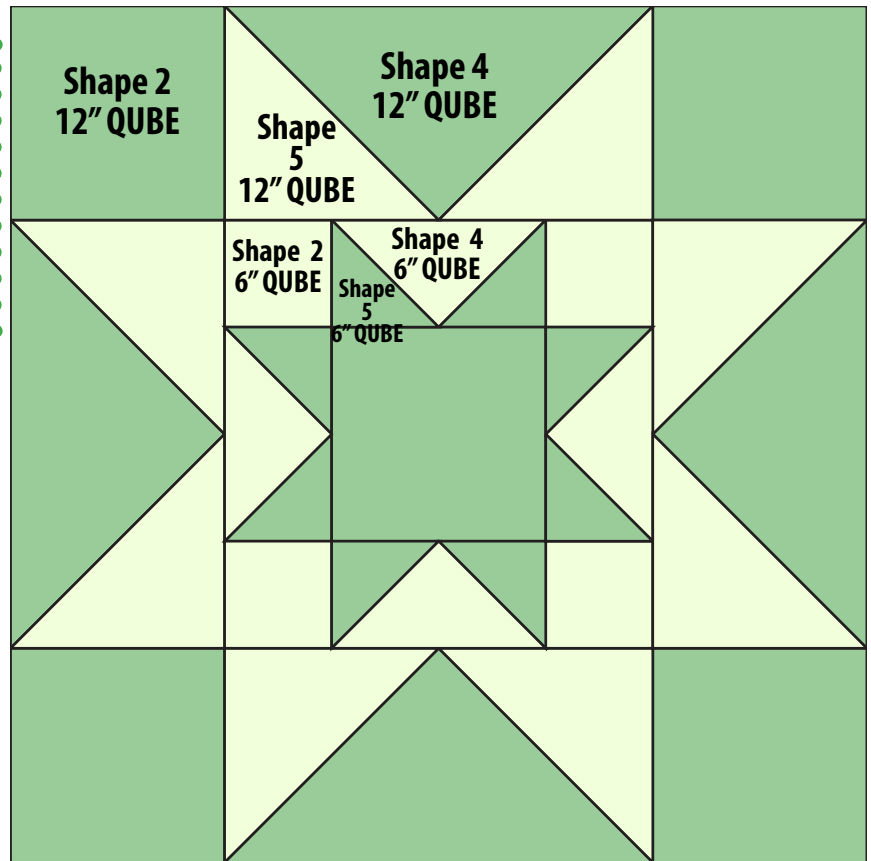

AccuQuilt GO! 12" and 6" Mix & Match QUBEs

Instructions by Marjorie Busby

This quilt block is actually made of two Variable Star quilt blocks. One is 12" finished and the other is a 6" finished block. The 6" finished block fits into the space that would normally be a plain center square on the 12" star block.

In the chart below you will find that the cutting order is designated by QUBE size rather than by fabric. If you want to cut dark fabric and then light fabric, you will find the dark fabric marked using a shadow in the cells.

Fabric should always be placed lengthwise on the die when cutting.
