

## Child's Back Pack

Make the basic Lazy Girl Tote Bag – free pattern for one yard tote bag:  
<http://www.lazygirldesigns.com/blog/?p=913>

Do not add the straps or finish the top band.  
Add a pocket to the front.

Cut the top off.

With the band on the inside of the bag (wrong side of bag) stitch the band on, catching the handles in the seam so that they come out of the top of the band on the same side as the pocket.

Fold the band over the seam allowance to cover it and fold it into a narrow band around the top of the bag and add loops underneath the band. Topstitch the band on both edges.

Thread one strap from the back across the top and through the loop.

Thread the second strap across to the opposite side.

Stitch ends to the side of the bag. Box the lower corners of the bag.

Stuff the bag full and give it a cute little girl.
