

Scrappy Pinwheel Block with easy and accurate piecing using the Accuquilt GO! Cutter

by Marjorie Busby
b-quilts.com

This makes an 8 inch finished block

Supplies:

2 ½ inch strip die

3 ½ inch strip die

Value die

Step 1: Prepare strips and make pinwheels

- Cut light and dark strips using the Accuquilt Go 2 ½" strip die
- Cut light and dark strips again by laying cross-wise on the 3 ½" strip die
- Lay 2 ½" x 3 ½" pieces at right angles and stitch diagonally as shown in the diagram. Trim to ¼" along the seam line.

Note: To make sure all the pinwheels spin in the same direction, always sew the light and dark in the same direction for every piece.

Step 2: Make background pieces and stitch

- Cut light background strips using the Accuquilt Go 2 ½ inch strip die.
- Cut these strips into 4 ½" bricks using the 4 ½" square on the Value die.
- Stitch pieced strip to background strip on the long edge (see diagram) and press to the dark .

Step 3: Make blocks

- Arrange with pinwheels in the center (see diagram).
- Stitch blocks together as you would a four-patch.
